EXPERIENCE

Wayfair

Software Engineer, Fintech & Loyalty Rewards

Boston, MA

March 2025 – Present

- Full-stack engineer for Rewards Acquisition, shipping checkout, cart, and browse features
- Built a GraphQL preloading flow for a rewards checkout modal, cutting load time from 3.8s to 0.5s without upfront purchase creation
- Removed legacy checkout bottlenecks, cutting P75 page latency by 43%
- Ran A/B experiments on checkout flows to optimize conversion in high-traffic purchase paths
- Unblocked a major sale launch by moving rate-limited client calls to a server-side API path
- Authored Java GraphQL architecture for personalized rewards messaging, centralizing ranking and fallbacks

Lacuna Mentors

Co-Founder and Lead Engineer

December 2023 – May 2024

- Co-founded and led engineering from zero to one for a mentorship marketplace, growing to 60+ mentors
- Owned onboarding, scheduling, and mentor discovery workflows, prioritizing improvements from user feedback
- Built a custom scheduling system, saving the business \$900/month in costs

Hariri Software & Application Innovation Lab

Software Engineering Intern

May 2021 – August 2023

- Worked directly with university researchers to manage the full product lifecycle for a suite of full-stack applications — from requirements gathering and rapid iteration based on weekly demos to final deployment
- Selected as one of only two students to receive the 2023 Hariri Student Excellence Award for exceptional skill, strong work ethic, and commitment to excellence

EDUCATION

Boston University

Bachelor of Arts in Computer Science

Honors: Dean's List (Fall 2021, Spring 2022, Fall 2022, Spring 2023, Fall 2023)
